HOW WE WORK

HOW WE WORK

1

Agency Fills Out Client Info Form

The agency owner provides key details about their client by filling out a service-specific intake form.

2

We Create the Onboarding Brief Presentation

Using the form responses, our team prepares an onboarding brief presentation to align on goals, strategy, and expectations.

3

Onboarding Meeting with the Client

We schedule a client-facing meeting to:

- Review the brief
- Clarify any doubts
- Finalize objectives 100%

4

Agency Chooses Their Role

The agency decides how they want to manage the meeting:

- Lead the meeting themselves, or
- Request our support to co-host and assist with the client.

5

Present Estimated Timeline

We share a preliminary timeline with clear phases and milestones. This timeline will be continuously updated throughout the project.

REVIEWS

I absolutely loved working with Laura! She is creative and I love the work she did on our marketing materials. We use the design she did for almost all of our deals and I can't say how much of a game-changer this was for us. Looking forward to using her skills for some of our other projects as well.
